# Cases where epithelium is unclear

Divya

Case 88 Match 1, all stains

Should only the outermost layer or the ones next to that too be included?

Case 83
Unmatched 3 h&e

Should the middle area (by the pink part) be included?

Case 87 Unmatched 1 h&e

How much of the middle should be included?

Case 38 (matches 13-15 all have this issue)

How to best annotate when an image is shaped like this?
